

TENDER NO: BALCO/COM/10022021/01

Design, supply, installation, commissioning and smooth operational support for anode slot cutting machine

Scope of work:

- 1) Design, supply, installation, commissioning of anode slot cutting machine at Carbon.
- 2) Smooth operational support for anode slot cutting machine.
- 3) Vendor to recommend the optimum slot height (minimum 350 mm) for cutting in anodes.
- 4) Performance guarantee test has to be carried out along with submission of detailed report.

Tentative proposed dimensions for slot width. Changes can be done as per expert suggestion by vendor.

FT10mm RT 12mm

FB12mm RB 14mm

FT- Front top **RT-** Rear top **FB-** Front bottom **RB-** Rear bottom.
